

## Homework Assignment #8

### Keywords and Phrases

What do you consider to be the top keywords and/or phrases for your website? Or in other words, what phrases would like to show up for in organic search?

Answer... Please provide a full list of any and all keywords and phrases that come to mind.

*Notes:*

*Don't think about the phrases beyond simple documentation.*

*Try and work on creating this list over a number of days.*

*The more phrases you think of before Bootcamp, the more data we have to work with in our in class exercises and activities.*
